

Birding 101 Resources to Learn More

- **All about Birds** – The best and first stop on the web to learn about birds and birding, as well as citizen science opportunities like FeederWatch and NestWatch.
www.allaboutbirds.org
- **Plants for Birds** – National Audubon resource to look up native plants for your area that are most helpful for birds and other wildlife.
www.audubon.org/plantsforbirds
- **eBird** – Millions of sightings records from across the world, searchable by county, state and country with listings searchable by birding hotspots and time of year.
www.ebird.org
- **Bird Academy from Cornell Lab of Ornithology** – Learn more about bird identification and become a better birder by going deeper on the ID of hawks, waterfowl, shorebirds, sparrows and more.
academy.allaboutbirds.org/
- **National Audubon** – Link up with over 400 chapters across the Americas for bird walks, workshop and programs.
www.audubon.org
- **Healthy Yards** – Take steps today for a healthier yard for yourself, your family and neighbors, and for birds and other wildlife. Make America green again.
